Re: Docket No. 99D-0557

Dear Dockets Management Branch:

I am writing to urge you to stop Xenotransplantation because:

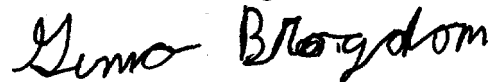

1. Whether it is a primate other than human, pig or any other animal, this process destroys life.
2. You can transmit animal viruses to all the recipients who get the organs.
3. We should follow Europe in this regard because they have an all out ban of Xenotransplants.

I hope these reasons have at least made you think about what's happening. I hope you'll change your practices and will spare innocent animals the torture and torment that you currently impose.

Thank you in advance for your cooperation and consideration.

Sincerely,

M. Gino Brogdon, Jr.
